Research proposals for MSc students at the Hanoi School of Public Health

Dear Dr. Le Cu Linh,

This letter refers to discussions you recently had with Drs. Peter Odermatt, Hung Nguyen Viet and Pham Duc Phuc who of the Swiss tropical Institute (STI) on our ongoing research activities in Vietnam within the NCCR North South program. In this frame, we are proposing 2 MSc topics to be conducted in Vietnam. We would like to offer these topics to your MSc students at HSPH and would be grateful if you could assist us in identifying and selecting students from your school for these positions.

Please find attached two proposals with requirements for respective position.

We look forward to receiving your support and collaborating with your institution.

Yours sincerely,

Professor Jakob Zinsstag
Unit Head Human and Animal Health
